Using This Annual Report

The annual report consists of a series of financial statements. The statement of net assets and the statement of activities are both new and provide information about the activities of City of Hudson, Michigan government-wide basis. They are designed to present a longer-term view of the City's finances. Fund financial statements tell how services were financed in the short-term, as well as what remains for future spending. Fund financial statements also report the City's operations in more detail than the government-wide financial statements.

Overview Of The Financial Statements

The City's basic financial statements are comprised of three components:

- A) Government-wide financial statements.
- B) Fund financial statements.
- C) Notes to the financial statements.

This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the City's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The City maintains 15 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general, ambulance, income tax, major street and each of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for its general and special revenue funds. Budgetary comparison statements or schedules have been provided herein to demonstrate compliance with those budgets.

Proprietary Funds. The City maintains one type of proprietary fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its wastewater and water operations. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses an internal service fund to account for its public works and general maintenance equipment. Because this service predominantly benefits governmental rather than business-type functions, it has been included within governmental activities in the government-wide financial statements.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes To The Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

The statement of activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement of some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, public works, parks and recreation and community development. The business-type activities of the City include water and waste water activities reflected in the utilities fund.

The government-wide financial statements include not only the City itself (known as the primary government), but also a legally separate authority - the Local Development Finance Authority - for which the City is financially accountable. Financial information for this component unit is reported separately from the financial information presented for the primary government itself.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories; governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Other Information

The City has reported under required supplementation information, information about the General Fund and Major Type Funds, and Combining Balance Sheets and Statement of Revenues, Expenditures and Changes in Fund Balances - Non-Major Type Governmental Funds.

The City As A Whole

The City's net assets for the year ended June 30, 2005 increased by 2.47% over the prior year, and management feels that even though the economic conditions have been slightly depressed, that the City was fiscally able to grow at a rate above inflation.

The governmental activities reflect net assets of \$4,216,371 and the business-type (utilities) of \$4,921,061.

By far the largest portion of the City's net assets (79 percent) reflects its investment in capital assets (e.g. land, buildings, vehicles, equipment and infrastructure), less any related debt used to acquire these assets that are still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Government Activities

Government activities increased the City's net assets by \$294,332.

Business-Type Activities

Business-type activities (decreased) the City's net assets by (\$76,477).

The City's Funds

Our analysis of the City's funds begins on Page 9, following the entity wide financial statements. The fund financial statements provide detail information about the most significant funds, not the City as a whole. The City Council and management creates funds to help manage money for specific purposes as well as to show accountability for certain activities, such as special property tax millages, etc.

General Fund Budgetary Highlights

Differences between the original budget and amended budget were immaterial.

Capital Assets And Debt Administration

The City's investment in capital assets for its governmental and business-type activities as of June 30, 2005, amounted to \$9,137,432 (net of accumulated depreciation). This investment in capital assets includes land, buildings and system, improvements, machinery and equipment, park facilities, roads, highways, and bridges. The total increase in the City's investment in capital assets for the current year was 2.7%.

Long-term debt of the City decreased by \$223,451 (see Note 8 of the basic financial statements). There was no new debt incurred in the fiscal year ended June 30, 2005.

Economic Factors And Next Year's Budget And Rates

The City's budget for 2005-2006 fiscal year has taken in consideration, the economic condition of the State of Michigan, anticipating reduced state share revenues. This will require close tabs on expenditures for the upcoming year and adjustments will be made to mirror, when possible, the revenue base, with expenses.

Contacting The City's Management

This financial report is intended to provide our citizens, taxpayers, customers and investors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have questions about this report or need additional information, we welcome you to contact the clerk's office at 121 N. Church Street, Hudson, Michigan 49247.

Honorable Mayor and Members Of The City Council City of Hudson 121 N. Church St. Hudson, Michigan 49247

PHILIP R. RUBLEY, C.P.A.

INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Hudson, Michigan as of and for the year ended June 30, 2005, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Hudson, Michigan, management. Our responsibility is to express opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented components units, each major fund, and the aggregate remaining fund information of the City of Hudson, Michigan, as of June 30, 2005, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis and budgetary comparison information on pages 1 through 6, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Hudson, Michigan basic financial statements. The combining and individual non-major fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

City of Hudson September 23, 2005

PRR/cab

The combining and individual non-major fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Respectfully Submitted,

Philip & Rubley, CPA

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the City of Hudson, Michigan conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units.

The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below:

A. Reporting Entity

City of Hudson, Michigan is governed by an elected council. The accompanying financial statements present the government for which government is considered to be financially accountable.

Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

<u>Discretely Presented Component Units</u> - The local development Finance Authority of the City of Hudson, Michigan (LDFA) is governed by a board consisting of members appointed by the City Manager (subject to City Council approval). The LDFA was formed to promote economic growth in the City of Hudson, Michigan pursuant to Public Act 281 of 1986.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenue.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements, except for agency funds, which do not have a measurement focus. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, expenditures relating to compensated absences, and claims and judgments are recorded only when payment is due.

Property taxes, franchise taxes, intergovernmental revenue licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The government reports the following major governmental funds:

The General Fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Ambulance Fund is a special Revenue Fund that receives monies for contractual services and charges for the purpose of providing Advanced and Basic Life Support Services to the community.

The income Tax Fund is a Special Revenue Fund that receives monies from residents, non-residents and businesses performing or operating within the City limits of Hudson, Michigan. These monies have been used for special projects, capital in nature.

The Major Street Fund is a Special Revenue Fund that receives state and local funding for the purpose of construction and maintenance of City streets designated as major streets under State of Michigan Act 51 of Public Acts of 1951.

The Local Street Fund is a Special Revenue Fund that receives state and local funding for the purpose of construction and maintenance of City streets designated as local streets under State of Michigan Act 51 of Public Acts of 1951.

The government reports the following major proprietary funds:

The Utilities Fund accounts for acquisition, operation and maintenance of the City's waste water and water system.

Additionally, the government reports the following fund types:

The Agency Funds account for assets held by the City acting as an agent for individuals, private organizations, other governments and/or other funds.

Private-sector standards of accounting issued prior to December 1, 1989, are generally followed in both the government-side and proprietary fund financial statements to the extent that those standards do not conflict with the standards of the Governmental Accounting Standards Board. The government has elected not to follow private-sector standards issued after November 30, 1989 for its business-type activities and enterprise funds.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenue include: (1) charges to customers or applicants for goods, services or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenue rather than as program revenue. Likewise, general revenue includes all taxes.

Proprietary Funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Utilities Funds are charges to customers for sales and services. The Utilities Funds are also recognize as operating revenues the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

E. Assets, Liabilities, and Net Assets or Equity

 Bank Deposits and Investment - Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value.

State statues authorize the government to deposit in the accounts of federally insured banks, credit unions, and savings and loans associations, and to invest in obligations of the U.S. Treasury, certain commercial paper, repurchase agreements, bankers acceptances, and mutual funds composed of otherwise legal investments.

- 2. Receivables and Payables In general, outstanding balances between funds are reported as "due to/from other funds." Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as "advances to/from other funds." Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances."
- 3. Prepaid Items Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements using the consumption method.
- 4. Inventories All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

- 5. Restricted Assets Certain proceeds of enterprise fund revenue bonds and general obligations bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants. The bond interest and redemption account is used to segregate resources accumulated for debt service payments. The bond reserve account is used to report resources set aside to make debt service payment on bonds which would otherwise be in default. The replacement account is used to report resources set aside to make major repairs and replacements to fixed operation assets of the enterprise fund.
- 6. Capital Assets Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., road, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$1,500 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant, and equipment of the primary government, as well as the component units, are depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Land Improvements	20 - 50
Building	10 - 50
Machinery, Equipment,	
And Furnishings	5 - 35
Utility Systems	50 - 100
Infrastructure	15 - 100
Vehicles	5 - 15

- 7. Compensated Absences It is the government's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations or retirement.
- 8. Long-Term Obligations In the government-wide financial statements and the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources.

Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs are reported as debt service expenditures.

9. Fund Equity — In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information — Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. All annual appropriations lapse at fiscal year end.

On or before the end of May of each year, the City Manager presents the proposed budget for review and holds public hearings and a final budget is adopted.

The appropriated budget is prepared by fund, function and activity. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is with the City Council.

B. Excess of Expenditures Over Appropriations in Budgeted Funds - P.A. 621 of 1978, as amended, provides that a local unit shall not incur expenditures in excess of the amounts appropriated. During the year ended June 30, 2005, the government incurred expenditures in excess of amounts appropriated at the legal level of budgetary control as follows:

	Amended		
General Fund:	<u>Budget</u>	<u>Actual</u>	<u>Variance</u>
General Government:			
Office	\$80,183	\$86,948	\$ 6,765
Treasurer	61,444	69,005	7,561

Income Tax - Major Fund: General Government	61,984	71,254	9,270
Local Street - Major Fund:			
Public Works Capital Outlay	65,323	70,482	5,159
capital Outlay	30,000	32,927	2,927

NOTE 3 - DEPOSITS AND INVESTMENTS

The government unit's deposits and investment policy are in accordance with statutory authority.

Investments made by the City are summarized below. The investments that are represented by specific identifiable investment securities are classified as to credit risk by the three categories described below:

Category 1:	Insured or registered, in the City's name.	or	securities	held	by	the	City	or	its	agent
	in the tity's name.									_

Category 3: Uninsured and unregistered, with securities held by the counterparty, or by its trust department or agent but not in the City's name.

	Category 1_	2	_3_	Carrying <u>Value</u>	Market <u>Value</u>
Checking, Certificate of Deposit and Savings	\$200,390	\$1,676,771	\$	\$1,877,161	\$1,877,161
	\$200,390	\$1,676,771	<u>\$</u>	<u>\$1,877,161</u>	\$1,877,16 <u>1</u>

Balance Sheet Cash And Cash Investments

The Governmental Accounting Standards Board (GASB) Statement No. 3 risk disclosures for the City's deposits are as follows:

<u>Deposits</u>	Carrying <u>Amount</u>
Insured (FDIC) (FSLIC) Uninsured:	\$ 200,390
Uncollateralized	1,676,771
Total	\$1,877,161

Total cash consist of: Cash and cash investments of \$1,721,547 and restricted cash of \$14,878.

Component is all insured by FDIC for total amount of \$390 and included in cash. Cash also consists of Agency Funds of \$140,346.

NOTE 4 - CAPITAL ASSETS

Capital assets activity for the year ended June 30, 2005 was as follows:

NOTE 5 - INTERFUND RECEIVABLES AND PAYABLES

At June 30, 2005, the following were interfund receivables and payables in the fund statement.

<u>Fund</u>	Interfund <u>Receivables</u>	Interfund <u>Payables</u>
General Benefit Internal Service Utilities	\$ 956 554 _60,000	\$ 554 956 60,000
	\$61,510	\$61,510

NOTE 6 - TRANSFERS

Transfers are used to (1) move revenues from the fund that is required to collect them to the fund that is required or allowed to expend them; (2) move receipts restricted, to or allowed for debt services from the funds collecting the receipts to the debt service payments become due; and (3) use unrestricted revenues collected in the general fund to finance various programs, accounted for in other funds in accordance with budgetary authorizations.

<u>Fund</u>	Transfers <u>In</u>	Transfers <u>Out</u>
General Income Tax Major Street Local Library Utilities Fire Cemetery	\$ 5,000 191,128 30,000 86,180 97,016 17,410 10,149	\$113,739 323,144
	<u>\$436,883</u>	\$436,883

NOTE 7 - PROPERTY TAXES:

The City bills and collects its own property taxes and also taxes for the County and several School Districts within its jurisdiction. Collections and remittances of the County and School taxes are accounted for in the Current Tax Collection Agency Fund. City property tax revenues are recognized as revenues in the fiscal year levied to the extent that they result in current receivables.

Property taxes are assessed December $31^{\rm st}$ and are levied on June $1^{\rm st}$. Taxes become delinquent on August $31^{\rm st}$ with a 1% interest charge beginning October $1^{\rm st}$. All delinquent taxes are charged with a 4% penalty.

The City currently levies 10.6419 mills. Property taxes attach as an enforceable lien on the property as of January 1.

NOTE 8 - LONG TERM DEBT

NOTE 9 - CAFETERIA PLAN - MEDICAL REIMBURSEMENT PLAN - DEPENDENT CARE PLAN

The City of Hudson has approved and adopted the Cafeteria Plan, Medical Expense Reimbursement Plan and Dependent Care Assistance Plan to be effective January 1, 1998.

The City of Hudson adopted a Cafeteria Plan under Internal Revenue Service Code SS 125, a Medical Expense Reimbursement Plan under code SS 105 (b) and an Dependent Care Assistance Plan Under Code SS 129. Each full-time employee is eligible to participate in each of the plans established. The maximum reimbursement for which any participant may apply under the Medical Expense Reimbursement Plan is \$3,000. The maximum reimbursement for which any participant may apply under the Dependent Care Assistance Plan is \$5,000.

The City of Hudson does not contribute to the Cafeteria Plan.

NOTE 10 - PENSION PLAN

The City of Hudson has a qualified 401(k) plan, administered by ICMA-RC.

Contributions are made by the City and employees. The Plan is blended between growth funds, cash management and government investments. Value in the 401k plan at June 30, 2005 was \$501,595. Contribution by the City for fiscal year 2005 was \$37,516.

NOTE 11 - OTHER INFORMATION

Risk Management

The government is exposed to various risks of loss related to torts; theft of damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the year ended June 30, 2005, the government carried insurance through various commercial carriers, to cover all risks of losses. The government has had no settled claims resulting from these risks that exceeded its commercial coverage in any of the past three fiscal years.

Members of American Institute of C.P.A.'s & the Michigan Association of C.P.A.'s

RECEIVED DEPT. OF TREASURY

OCT 1 7 2005

LOCAL AUDIT & FINANCE DIV.

September 23, 2005

We have examined the combined financial statements of the City of Hudson, Michigan and the combining, individual fund and account group financial statements of the City as of and for the year ended June 30, 2005 and have issued our report thereon dated September 3, 2005. As a part of our examination, we made a study and evaluation of the City's system of internal accounting control to the extent we considered necessary to evaluate the system as required by auditing standards generally accepted in the United States of America. Under these standards, the purposes of such an evaluation are to establish a basis for reliance on the system of internal accounting control in determining the nature, timing and extent of other auditing procedures that are necessary for expressing an opinion on the financial statement and to assist the auditor in planning and performing his examination of the financial statements.

The objective of internal accounting control is to provide reasonable, but not absolute, assurance as to the safeguarding of assets against loss from unauthorized use or disposition, and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of a system of internal accounting control should not exceed the benefits derived and also recognizes that the evaluation of these factors necessarily requires estimates and judgments by management.

There are inherent limitations that should be recognized in considering the potential effectiveness of any system of internal accounting control. In the performance of most control procedures, errors can result from misunderstanding of instructions, mistakes of judgment, carelessness, or other personal factors. Control procedures whose effectiveness depends upon segregation of duties can be circumvented by collusion. Similarly, control procedures can be circumvented intentionally by management either with respect to the execution and recording of transactions or with respect to the estimates and judgments required in the preparation of financial statements. Further, projection of any evaluation of internal accounting control to future periods is subject to the risk that the procedures may become inadequate because of changes in conditions and that the degree of compliance with the procedures may deteriorate.

Our examination of the financial statements made in accordance with auditing standards generally accepted in the United States of America, including the study and evaluation of the City's system of internal accounting control for the year ended June 30, 2005, that was made for the purpose set forth in the first paragraph of this report, would not necessarily disclose all weaknesses in the system because it was based on selective tests of accounting records and related data.

1. <u>Capital Assets</u>

It will be necessary to keep track of all disposed, traded and purchased assets over \$1500 for the fixed assets schedule of the City.

City of Hudson September 23, 2005

2. Budgeting

A budgeting schedule reflecting changes made per line item from original budget must be maintained.

3. Ambulance

There needs to be follow-up on billings and collectibility to be sure they are collectible.

The above mentioned conditions were considered in determining the nature, timing, and extent of audit tests to be applied to our examination of the financial statements, and this report does not modify our report dated September 23, 2005, on such financial statements.

If we can be of any further assistance, please do not hesitate in contacting us.

Respectfully Submitted,

PRR/cab
